Subject: PFAS for SRC to work on
Attachments: Specific chemicals (d) Inclusion Following Determination.docx; Testmethods537and533 with salts.xlsx

Hi Dave,

In the attached Word document I listed the specific chemicals from the NDAA under (d) Inclusion Following Determination and noted which ones are already being worked on by EPA. For the last two broad categories, I cite to the attached Excel file for the test method chemicals (those in green are already listed) and then note that for the PFAS used to make polymers EPA is still working on that list.

Ex. 5 Deliberative Process (DP)

Let me know if you have any questions.

Dan
